All proceeds benefit the Rockbridge Area Public Schools Foundation, which is a 501c (3) organization providing Rockbridge County students with the best programs and resources to aid in their success.

Over the past decade, the Rockbridge County Public Schools Foundation has raised and distributed over \$400,000 for this purpose and these significant funds come from generous donors. Our work as an independent, all-volunteer Foundation, is to ensure that funds are available for the most promising programs that are not funded by the school system budget.
